General

Class: T 2-3 (8:30-10:25), Th2 (8:30-9:20)  
Instructor: Brian Iwata  
Email: iwata@ufl.edu  
GradTA: Daniel Conine  
Email: dconine@ufl.edu

Room: PSY 130  
Office Hours: T 10:30-11:30  
W 4:00-5:00  
Office: Psych. Bldg. Rm. #329

Overview

This is an introductory course in applied behavior analysis (ABA). Topics to be covered include:

• Basic principles of learning
• ABA research methods and techniques
• Applications of ABA across a wide range of populations, settings, and behaviors

Course-related information will be posted on the E-learning website, which you can access by logging in with your username and password (the same as your UF account) at: https://elearning.ufl.edu/. Please check this website frequently; course schedule changes will be posted here. Rather than using the website for sending email, please use the email addresses above.

Objectives

The goal of this course is to introduce students to the field of ABA. Students will examine learning principles and their application to a wide range of social problems through assigned reading—chapters from the course text as well as research articles published in scientific journals. Lectures will review, supplement, and expand upon material covered in assigned readings. The course is designed so that it is possible for every student to earn an “A.” Course schedule, learning objectives (notes), and point values for quizzes and tests are specified clearly so that students can plan their study schedules. Quizzes and tests provide students with opportunities throughout the term to demonstrate understanding of course material, and periodic test exemptions are possible based on previous performance.

Text and Readings

• Additional readings (most from the Journal of Applied Behavior Analysis) will be available on the course website.

Format and Schedule

A lecture/discussion format will be used. Chapters and readings will be assigned for each class (see schedule). Lecture notes will be posted on the course website one day in advance of class. Note: Schedule deviations may occur and will be announced in class and posted on the course website.

Quizzes and Tests

Quizzes: A quiz will be given at the end of each class on the material assigned for that day and covered in a chapter summary (text) study questions (articles), or lecture. Tuesday quizzes consist of two questions; Thursday quizzes consist of one question. Each question is worth 5 points and is graded as 5 (correct), 3
Quiz performance is extremely important—it counts for over a third of the final grade and is used as a basis for test exemption (see next item).

Tests: See the class schedule for test dates. Questions will consist of short-answer, true/false, and matching items (no multiple choice items), and will be drawn from material covered in the text, readings, and lectures. Each test is worth 50 points. Students may earn an “exemption” from certain tests based on their previous test and quiz grades.

Note: Missed quizzes or tests cannot be made up. There are two opportunities for students to recover points lost due to missed quizzes/tests or poor scores.

1. A 15-pt "allowance" is built into the formula for determining final grades (see below), which covers three absences for any reason (flat tire, overslept, illness). If an emergency requires prolonged absence from class, please contact me immediately.

2. There will be two versions of the last test (Test #6). Form "A" will be a regular test worth 50 pts and will cover material since the previous test. Form "B" will be an optional test worth 100 pts and will cover all material in the course. If you elect to take Form "B," your lowest test grade will be discarded and will be replaced with the points earned on Test #6B.

Grading

Additional Information

Special accommodations: Every effort will be made to show consideration to all students and to create a classroom environment in which students feel that their contributions are valued. Students requesting special accommodation must first register with the Dean of Students Office, which will provide documentation that the student must give to me when requesting accommodation. All properly requested accommodations will be granted discreetly. If other special circumstances should arise during the term, please contact me directly and as soon as possible.

Sexual harassment. UF fosters a campus free of sexual harassment, domestic violence, dating violence, stalking, and/or any form of sex or gender discrimination. If you disclose a personal experience as a UF student, the course instructor is required to notify the Title IX Coordinator by completing the report form available at (https://titleix.ufl.edu/report-an-issue/), emailing ([titleix@ad.ufl.edu) or calling (352) 273-1094.
