

APPROVED COURSES FOR THE GRADUATE CERTIFICATE IN GERONTOLOGY

If a course is cross-listed at the graduate and undergraduate level, graduate students must enroll at the graduate level. If the course is a seminar or special topics class, the course is approved only when the course title matches the one listed below. The courses on this list are not offered every semester. Check with departments or instructors to find out when courses will be offered to plan your course of study.

Reminder. Beyond the core course, DEP 6059, which is offered online, only one other course can be completed online.

Course not on this list? Students or faculty can apply to have a new course added to the approved list if the course content is substantially related to aging issues. Send a copy of the syllabus so that the Director can verify that the course has significant aging-related content. In consultation with other faculty, the course will be considered for addition to the approved courses list. Submit this information to:

Dr. Susan Bluck bluck@ufl.edu
Director, Graduate Certificate in Gerontology

Core Course (Required)

DEP 6059 Issues and Concepts in Gerontology (online, formerly GEY 6646)

Gerontology

GEY 6905 Independent Study; see certificate website for details

Geriatric Care Management

RCS 6931 Medical and Health Management Issues in Aging (online)

Anthropology

ANG5464 Culture and Aging

Clinical and Health Psychology

CLP7934 Special Topics: Psychotherapy with Older Adults; Very Late Life; Neurocognition in Aging; Neuropsychology of Aging (online)

Communication Sciences & Disorders

SPA6564 Communication and Aging

SPA6581 or SPA 5254 Neurocognitive Language Disorders

Dentistry

DEN7319 Principles of Geriatric Oral Medicine

Education-Counselor Education

SDS6936 Death & Dying

Exercise and Sports Sciences

PET 7077 Aging and Free Radical Biology

Family, Youth, & Community Sciences

FYC 5106 Retirement and Estate Planning

FYC 6932 International Perspectives on Aging and Caregiving

FYC 6932 Aging in the Context of Family and Community

Geography

GEY 6341 Shelter and care options for the US elderly (formerly **GEO 6938**)

Health Science Education

HSC6567 Health Promotion and Programming in Gerontology

HSC6935 Health and End-of-Life Issues

Health Services Administration

HSA6407 Health and Disease

Journalism and Communications

MMC6936 Family Communication & Health across the Life Span

Law

LAW6930 Health Care Law M

LAW6930 Estates and Trusts M

Nursing

NGR6252 Primary Care of Older Adults

RCS6931 Health Promotion, Disease Prevention and the Older Adult

NGR6930 Aging and Health Care issues

Medicine

GMS 6099 Foundations in Aging and Geriatric Research (online)

GMS 6063 Mechanisms of Aging (online)

GMS 6417 Integrative Aging Physiology (online)

GMS 6485 Population-based Research on Aging (online)

GMS 6484 Geriatric and Age-related Diseases (online)

GMS 6715 Healthy Aging I: Behavioral & Clinical Outcomes (online)

GMS 6876 Law and Ethics of Aging (online)

GMS 6771 Clinical Neuroscience of Aging (online)

GMS 7593 Neurobiology of Aging (2 credits; online)

Occupational Therapy

OTH6933 Special Topics: Elders

Physical Therapy

PHT6935 Seminar: Physical Aspects of Aging

Psychology

DEP6059 Approved special topics include: Memory Across the Life Span; Cognition Across the Life Span, Social Cognition and Aging; Autobiographical Memory and Aging; Aging and the Human Brain; Death and Dying

DEP 6099 Survey of Developmental Psychology. Student MUST do an aging-related major paper as the grant proposal requirement for this class. Submit the paper with certificate completion form to demonstrate completion.

DEP 6406 Adult Development and Aging

EXP 6939 Current Issues in Cognition and Sensory Processes: Language, Cognition and Aging; Theories of Cognitive Aging

Public Health

PHC 6717 Disability Research

PHC 6405 Epidemiology of Aging

PHC 6937 Aging and Public Health; Psycho-Social Issues in Chronic Disease

Sociology

SYP6735 Sociology of Aging and the Life Course

SYP6736 Sociology of the Aged

SYP6745 Aging and End-of-Life Issues

SYA7933 Approved special topics include: Retirement Research; Health and Aging; Gender and Aging; Health Disparities and the Life Course; Death and Dying in Old Age
